Fat Cardinal Bakery for a cleanup of
Jamaica Bay! Jamaica Bay is
wetland estuary, made up of
many meadow lands, freshwater
ponds, and islands and home to
diverse wildlife species. It is a vital

environment for both recreation and protective wildlife sanctuaries. Unfortunately, it is littered with trash and debris from neglectful visitors and still showing signs of Hurricane Sandy's destruction in 2012.the fat cardinal bakery will be rewarding all of the volunteers with freshly baked goods for all of their hard work!
