# Opportunity to Become LEED Accredited

Want to get involved in sustainability? Opportunities are plentiful and LEED is at the forefront! LEED (Leadership in Energy and Environmental Design) is simply a sustainability scorecard for green buildings. Buildings can become LEED Certified as can people! The LEED Green Associate is the only professional designation to show employers and clients you have certified knowledge in the field. To date, this course and its materials have proven to be instrumental in helping over 8000 students pass their respective exam at a 100% pass rate. This course is offered at a

quarter of the price and time as the competition and is geared at allowing students to graduate with letters after their name! **This course meets the exam's eligibility requirements and the USGBC charges a \$100 (reduced for students) fee for the actual exam which can be taken at any time at your nearest Prometric center. Save money by reserving your spot today and make a positive difference in your career!** **Early-Bird Cost: \$300 (\$200 for full time students)** To register for the class please
